 Fathima Nusha

Summary

Enthusiastic undergraduate student with a focus on cybersecurity, software development, and system engineering. Currently working as a trainee system developer in a startup, gaining hands-on experience with modern technologies. Eager to apply technical skills in system development, network security, and web technologies. Passionate about contributing to IT projects and continuing to grow in a professional environment.

Skills

Languages:
Python, C++, Java, JavaScript, C#
● ● ● ● ○

Frameworks
React.js, Node.js, Flask, Django
● ● ● ● ○

Tools
Git, GitHub, Visual Studio Code, PyCharm, AWS, Docker, Postman, Kali Linux, MySQL, MongoDB
● ● ● ● ○

Soft Skills
Problem Solving, Teamwork, Communication, Adaptability, Time Management, Critical Thinking
● ● ● ● ●

Education

University of Vavuniya   September 2023-Present
Bsc.in Information Technology   Undergraduate
3.43 current

Projects

TaskMan
Developed a dynamic task management system with user login, task creation, editing, and real-time status updates. Used JavaScript for interactivity, PHP for backend logic, and SQL for database management. Designed a responsive UI with HTML/CSS to enhance user experience.
